MacDonald Mines Exploration Ltd.

AUDITED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2021 and 2020

(EXPRESSED IN CANADIAN DOLLARS)

Independent Auditor's Report

MNP LLP

To the Shareholders of MacDonald Mines Exploration Ltd.:

Opinion

We have audited the financial statements of MacDonald Mines Exploration Ltd. (the "Company"), which comprise the statements of financial position as at December 31, 2021 and December 31, 2020, and the statements of loss and comprehensive loss, changes in shareholder's equity and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2021 and December 31, 2020, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the financial statements, which indicates that the Company incurred a net loss during the year ended December 31, 2021 and, as of that date, the Company had an accumulated deficit. As stated in Note 1, these events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated. We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company’s financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Patrycja Anna Kajda..

The accompanying notes are an integral part of these financial statements.

1. Nature of Business and Going Concern

MacDonald Mines Exploration Ltd. (the "Company") is a publicly traded company actively engaged in the acquisition, exploration and development of mineral properties. The Company's registered office is Suite 1001, 145 Wellington Street West, Toronto, Ontario, Canada, M5J 1H8. Since November 1, 2011, the Company has continued under the Canadian Business Corporations Act. Prior to November 1, 2011, the Company was continued under the Quebec Business Corporations Act (formerly, Part 1A of the Companies Act (Quebec)). The Company's Class A common shares are listed on the TSX Venture Exchange ("TSXV") under the trading symbol "BMK".

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current operations, including exploration and evaluation programs, will result in profitable mining operations. The Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, and the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis.

These financial statements have been prepared using International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") on a going concern basis which assumes the Company will be able to meet its obligations and continue its operations for the next 12 months. During the year ended December 31, 2021, the Company incurred a net loss and comprehensive loss of $3,095,646 (2020 – $3,359,348) and had shareholders' equity of $1,114,398 (December 31, 2020 – $2,226,265) and, as of that date, had working capital of $1,066,086 (December 31, 2020 – working capital $2,172,744).

The Company's continuation as a going concern is dependent upon successful results from its mineral property exploration activities and its ability to attain profitable operations and generate funds therefrom and/or raise equity capital or borrowings sufficient to meet current and future obligations. There is no assurance that the Company will continue to be able to obtain adequate financing in the future or that such financing will be on terms acceptable to the Company. These material uncertainties may cast significant doubt about the Company's ability to continue as a going concern.

These financial statements do not reflect the adjustments to the carrying value of assets and liabilities and the reported expenses that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

The rapid spread of the COVID-19 virus, which was declared by the World Health Organization to be a pandemic on March 11, 2020, and actions taken globally in response to COVID-19 have significantly disrupted business activities throughout the world. The Company's business relies, to a certain extent, on free movement of goods, services, and capital within Canada, which has been significantly restricted as a result of the COVID-19 pandemic. Given the ongoing and dynamic nature of the circumstances surrounding COVID-19, it is difficult to predict how significant the continuing impact of COVID-19, including any responses to it, will be on the economy and the Company's business in particular, or for how long any disruptions are likely to continue. The extent of such impact will depend on future developments, which are highly uncertain, rapidly evolving and difficult to predict, including new information which may emerge concerning the severity of COVID-19 and additional actions which may be taken to contain COVID-19. Such further developments could have a material adverse effect on the Company's business, financial condition, results of operations and cash flows.

2. Basis of Preparation and Statement of Compliance

These financial statements are prepared in accordance with IFRS, as issued by the IASB and Interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC").

These financial statements have been prepared on a going concern basis, under the historical cost convention except for certain financial instruments that have been measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The principal accounting policies and critical estimates and judgements used when compiling these financial statements are set out below. These financial statements were approved by the Board of Directors on April 21, 2022.

3. Significant Accounting Policies and Critical Accounting Judgements and Estimates

a) Functional and Presentation Currency

Items included in these financial statements are measured using the currency of the primary economic environment in which the Company operates (the "functional currency"), which was determined to be the Canadian dollar and is also the Company's presentation currency. Transactions in currencies other than the Canadian dollar are translated into Canadian dollars at exchange rates at the time of the transactions as follows:

(i) Monetary assets and liabilities are translated at rates of exchange at each reporting date with the resulting gains or losses recorded in foreign exchange gain/loss in the statements of loss and comprehensive loss;

(ii) Non-monetary items are translated at historical exchange rates and are not retranslated; and

(iii) Expense items are translated at the rates of exchange prevailing on the dates of the transactions.

b) Cash and Cash Equivalents

Cash and cash equivalents include cash, demand deposits and short-term, highly-liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Cash equivalents have maturities of three months or less at the date of acquisition. Interest earned is included in interest income on the statements of loss and comprehensive loss.

c) Marketable and Other Securities

Marketable securities consist of equity securities that are listed on a recognized stock exchange, over which the Company does not have control or significant influence. Other securities consist of shares and warrants that are not listed on a recognized exchange.

d) Taxes and Other Receivables

Taxes and other receivables consist primarily of HST and QST receivables from government authorities in Canada.

3. Significant Accounting Policies (continued)

e) Mineral Properties and Exploration Expenditures

The Company expenses all costs relating to the acquisition of, exploration for and development of mineral claims. Such costs include, but are not limited to, acquisition costs, geological, geophysical studies, exploratory drilling and sampling. Once a project has been established as commercially viable and technically feasible, related development expenditures are capitalized. This includes costs incurred in preparing the site for mining operations.

f) Impairment of Non-Financial Assets

The carrying values of equipment are assessed for impairment when indicators of such impairment exist. If any indication of impairment exists, an estimate of the asset's recoverable amount is calculated. The recoverable amount is determined as the higher of the fair value less costs to sell for the asset and the asset's value in use.

If the carrying amount of the asset exceeds its recoverable amount, the asset is impaired, and an impairment loss is charged to the statements of loss and comprehensive loss to reduce the carrying amount to its recoverable amount.

A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If this is the case, the carrying amount of the asset is increased to its recoverable amount. The increased amount cannot exceed the carrying amount that would have been determined, net of accumulated depreciation, had no impairment loss been recognized for the asset in prior years. Such a reversal is recognized in the statements of loss and comprehensive loss.

g) Loss per Common Share

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. The diluted loss per share calculation assumes that any proceeds from the exercise of dilutive stock options and warrants would be used to repurchase common shares at the average market price during the period, with the incremental number of shares being included in the denominator of the diluted loss per share calculation. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive. All of the Company's outstanding stock options and warrants were anti-dilutive for the years ended December 31, 2021 and 2020.

h) Share Capital

Common shares are classified as equity. Incremental costs directly attributable to the issue of common shares and share purchase warrants are recognized as a deduction from equity. Common shares issued for consideration other than cash are valued based on their market value at the date the shares are issued.

Proceeds received from the issuance of units, consisting of common shares and share purchase warrants, are allocated to common shares and warrants on a relative fair value basis whereby the common shares are valued based on the quoted market price of the common shares at the time the units are issued, and the share purchase warrants are valued using the Black-Scholes option pricing model.

3. Significant Accounting Policies (continued)

i) Share-based Compensation

Share-based compensation transactions are measured based on the fair value of the share-based compensation issued. The Company grants stock options to certain employees, directors and consultants under the terms of the Company's Stock Option Plan. Each tranche in an option award is considered a separate award with its own vesting period and grant date fair value. The fair value of each tranche is measured at the date of grant using the Black-Scholes option pricing model. The Black-Scholes option pricing model requires estimates for the expected life of options and stock price volatility which can materially affect the fair value estimate. Volatility and the expected life of options is estimated based on an analysis of factors such as the Company's historical price trends, history of option holder activity, and peer and industry benchmarks for similar transactions.

Share-based compensation transactions with parties other than employees and directors are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

j) Income Taxes

Income tax consists of current and deferred tax. Current and deferred tax are recognized in profit or loss except to the extent they relate to items recognized directly in equity or other comprehensive income.

Current tax is recognized and measured at the amount expected to be recovered from or payable to the taxation authorities based on the income tax rates enacted or substantively enacted at the end of the reporting period and includes any adjustment to taxes payable in respect of previous years.

Deferred tax is recognized on any temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable income or loss. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized and the liability is settled. The effect of a change in the enacted or substantively enacted tax rates is recognized in net loss and comprehensive loss depending on the item to which the adjustment relates.

Deferred tax assets are recognized to the extent future recovery is probable. At each reporting period end, deferred tax assets are reduced to the extent that it is no longer probable that sufficient taxable earnings will be available to allow all or part of the asset to be recovered.

k) Flow-through Shares

The Company will, from time-to-time, issue flow-through common shares to finance a portion of its exploration program. Pursuant to the terms of the flow-through share agreements, these shares transfer the tax deductibility of qualifying resource expenditures to investors. On issuance, the Company bifurcates the flow-through share into: i) a flow-through share premium, equal to the estimated premium, if any, investors pay for the flow-through feature, which is recognized as a liability; and ii) share capital. Upon expenditures being incurred, the Company derecognizes the liability and recognizes a deferred tax liability for the amount of tax reduction renounced to the shareholders. The premium is deferred and recognized as other income as the expenditure incurs, and the related deferred tax is recognized as a tax provision.

Proceeds received from the issuance of flow-through shares are restricted to be used only for Canadian resource property exploration expenditures. The Company may also be subject to a Part XII.6 tax on flow-through proceeds renounced under the Look-back Rule in accordance with Government of Canada flow-through regulations. When applicable, this tax is accrued as a financial expense until paid.

3. Significant Accounting Policies (continued)

l) Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

m) Equipment

Equipment is stated at cost, less accumulated depreciation and accumulated impairment losses. Cost comprises the fair value of consideration given to acquire or construct an asset and includes the direct charges associated with bringing the asset to the location and condition necessary for putting it into use. Depreciation is provided over the estimated useful lives of the equipment using the following methods:

- Exploration equipment – 50% declining balance
- Vehicles – 30% straight-line

n) Rehabilitation Provision

The Company records the present value of estimated costs of legal and constructive obligations required to restore operating locations in the period in which the obligation is incurred. The nature of these restoration activities includes dismantling and removing structures, dismantling operating facilities, and restoration, reclamation and re-vegetation of affected areas.

The obligation generally arises when the asset is installed or the ground / environment is disturbed at the production location. When the liability is initially recognized, the present value of the estimated cost is capitalized by increasing the carrying amount of the related mining assets to the extent that it was incurred prior to the production of related ore. Over time, the discounted liability is increased for the change in present value based on the discount rates that reflect current market assessments and the risks specific to the liability. The periodic unwinding of the discount is recognized in the statement of loss as a finance cost. Additional disturbances or changes in rehabilitation costs will be recognized as additions or charges to the corresponding assets and rehabilitation liability when they occur. When applicable for closed sites, changes to estimated costs are recognized immediately in the statement of loss and comprehensive loss. As at December 31, 2021 and December 31, 2020 the provision was $nil.

o) Financial Assets and Liabilities

IFRS 9 – Financial instruments (“IFRS 9”) includes guidance on the classification and measurement of financial assets. Under IFRS 9, financial assets are classified and measured either at amortized cost, fair value through profit or loss (“FVTPL”) or fair value through other comprehensive income (“FVTOCI”) based on the business model in which they are held and the characteristics of their contractual cash flows.

3. Significant Accounting Policies (continued)

o) Financial Assets and Liabilities (continued)

<u>Financial assets</u>
Financial assets are classified as either financial assets at FVTPL, amortized cost, or FVTOCI. The Company determines the classification of its financial assets at initial recognition.

i. Financial assets recorded at FVTPL

Financial assets classified as FVTPL are measured at fair value with changes in fair value on those items recognized in net loss and comprehensive loss. Financial assets are classified as FVTPL if they do not meet the criteria of amortized cost or FVTOCI.

The Company's marketable and other securities are classified as financial assets measured at FVTPL.

ii. Amortized Cost

Financial assets classified as amortized cost are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are carried at amortized cost less any provision for impairment. Individually significant receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default.

The Company's cash and cash equivalents, and taxes and other receivables are classified as financial assets measured at amortized cost.

iii. Financial assets recorded at FVTOCI

Financial assets are recorded at FVTOCI when the change in fair value is attributable to changes in the Company's credit risk. The Company did not hold any financial assets measured at FVTOCI as at December 31, 2021 and December 31, 2020.

<u>Financial liabilities</u>
Financial liabilities are classified as either financial liabilities at FVTPL or at amortized cost. The Company determines the classification of its financial liabilities at initial recognition.

i. Amortized cost

Financial liabilities measured at amortized cost, including borrowings, are initially measured at fair value, net of transaction costs. Financial liabilities are subsequently measured at amortized cost using the effective interest method, with interest recognized on an effective yield basis.

The effective yield basis is a method of calculating the amortized cost of a financial liability and of allocating interest costs over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability to the net carrying amount on initial recognition.

The Company's accounts payable and accrued liabilities approximate their amortized cost.

ii. Financial liabilities recorded at FVTPL

Financial liabilities are classified as FVTPL if they do not fall into the amortized cost category detailed above.

3. Significant Accounting Policies (continued)

o) Financial Assets and Liabilities (continued)

Transaction costs
Transaction costs associated with financial instruments carried at FVTPL are expensed as incurred, while transaction costs associated with all other financial instruments are included in the initial carrying amount of the asset or the liability.

Recognition and measurement
Instruments classified as FVTPL are measured at fair value with gains and losses arising from the changes in fair value of the financial instruments presented in the statement of loss and comprehensive loss as the net unrealized gains or losses in the period they arise. Instruments classified as amortized cost are measured at amortized cost using the effective interest rate method. Instruments classified as FVOCI are measured at fair value with unrealized gains and losses recognized in other comprehensive loss.

Determination of fair values
The determination of fair value requires judgement and is based on market information, where available and appropriate. At the end of each financial reporting period, the Company's management estimates the fair value of securities based on quoted trading prices at the end of the reporting period or the closing trade price on the last day the security traded if there were no trades at the end of the reporting period, or other such fair value method that is appropriate if the security is not listed on a recognized exchange.

Disposition of marketable securities
Realized gains or losses on the disposal of securities and unrealized gains and losses on securities classified as FVTPL are reflected in profit or loss on the transaction date and are calculated on a weighted average cost basis.

Derecognition of financial liabilities
The Company de-recognizes financial liabilities when the obligations are discharged, cancelled or expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in the statement of loss and comprehensive loss.

Impairment of financial assets
Financial assets not measured at FVTPL are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the financial assets have been negatively impacted. Evidence of impairment could include: significant financial difficulty of the issuer or counterparty; default or delinquency in interest or principal payments; or the likelihood that the borrower will enter bankruptcy or financial reorganization.

The carrying amounts of the Company's financial assets are reviewed at each reporting date to determine if there is any indication of impairment. As of December 31, 2021 and December 31, 2020, the fair values of the financial assets classified at amortized cost approximated their carrying value due to their short-term nature.

Financial instruments recorded at fair value
Financial instruments recorded at fair value on the statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

3. Significant Accounting Policies (continued)

o) Financial Assets and Liabilities (continued)

- Level 1 – valuation based on unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 – valuation techniques using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

p) Leases

The Company determines if an arrangement is a lease at contract inception by evaluating if the contract conveys the right to control the use of identified assets during the period of use. A right-of-use ("ROU") asset represents the Company's right to use an identified asset for the lease term and a lease liability represents the Company's obligation to make payments as set forth in the lease agreement. ROU assets and lease liabilities are included on the Company's statements of financial position and are recognized based on the present value of the future lease payments at the lease commencement date over the expected lease term which includes options to extend or terminate the lease when it is reasonably certain those options will be exercised. The interest rate used to determine the present value of the future lease payments is the Company's incremental borrowing rate at lease inception, because the interest rate implicit in the lease is generally not readily determinable. A ROU asset initially equals the lease liability, adjusted for any lease payments made prior to lease commencement and any lease incentives. All leases are recorded on the statements of financial position except for leases with an initial term of less than 12 months. ROU assets are amortized on a straight-line basis over the shorter of the remaining useful life of the asset and lease term. Depreciation expense is recognized in the statements of loss and comprehensive loss.

q) New Accounting Standards and Amendments

Certain pronouncements have been issued by the IASB that are effective for annual periods beginning on or after January 1, 2021. The Company has assessed the amendments and determined that there is no material impact on the accounting and presentation of the financial statements.

Certain pronouncements have been issued by the IASB that are applicable for accounting periods after December 31, 2021. There are currently no such pronouncements that are expected to have a significant impact on the Company's financial statements upon adoption.

r) Critical Accounting Judgements and Estimates

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of income and expenses during the reporting periods. Actual outcomes could differ from these estimates.

These financial statements include estimates that, by their nature, are uncertain. The impacts of such estimates are pervasive throughout these financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the

3. Significant Accounting Policy (continued)

estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future that management has made that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from estimates made, relate, but are not limited to, the following:

Fair Value of Investment in Securities Not Quoted in an Active Market
Where the fair values of financial assets and financial liabilities recorded on the statements of financial position, including equities and warrants, cannot be derived from active markets, they are determined using a variety of valuation techniques. The inputs to these models are derived from observable market data where possible; where observable market data is not available, management's judgment is required to establish fair values.

Warrants
The Company uses the Black-Scholes option pricing model to calculate the value of warrants issued as part of the Company's private placements and in the Company's investment portfolio. The Black-Scholes model requires six key inputs to determine a value for a warrant: risk free interest rate, exercise price, market price at date of issue, expected dividend yield, expected life and expected volatility. Certain of the inputs are estimates which involve considerable judgment and are, or could be, affected by significant factors that are out of the Company's control. For example, a longer expected life of the warrant or a higher volatility number used would result in an increase in the warrant value.

Going concern
The preparation of these financial statements requires management to make judgments regarding the going concern of the Company as previously discussed in Note 1.

Share-based compensation
The Black-Scholes option valuation model used by the Company to determine fair values for stock-based compensation was developed for use in estimating the fair value of freely traded options. This model requires input of highly subjective assumptions including future stock volatility and expected time until exercise. Changes in the subjective input assumptions can materially affect a stock option's fair value estimate.

Deferred taxes
The estimation of income taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income, which in turn is dependent upon the successful discovery, extraction, development and commercialization of mineral reserves. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets, and deferred tax provisions or recoveries could be affected.

Deferred Flow-Through Premium Estimates
Recorded costs of flow-through share premium liabilities reflect premiums received by the Company on the issue of flow-through shares. The premium is subject to measurement uncertainties and requires the Company to assess the value of non-flow-through shares. The determination is subjective and does not necessarily provide a reliable single measure of the fair value of the premium liability (see note 12).

3. Significant Accounting Policy (continued)

r) Critical Accounting Judgements and Estimates (continued)

Provision for Flow-Through Shares
Management estimates the probability each year for the likelihood of the provision. Changes to the probability can affect the carrying value of the provision as disclosed in Note 13.

Income, value added, withholding and other taxes
The Company is subject to income, value added, withholding and other taxes. Significant judgment is required in determining the Company's provisions for taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. The determination of the Company's income, value added, withholding and other tax liabilities requires interpretation of complex laws and regulations. The Company's interpretation of taxation law as applied to transactions and activities may not coincide with the interpretation of the tax authorities. All tax related filings are subject to government audit and potential reassessment subsequent to the end of the financial statement reporting period. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the tax related accruals and deferred income tax provisions in the period in which such a determination is made.

4. Capital Management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of mineral properties. The Company's Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines its capital to comprise its shareholders' equity, specifically its capital stock, warrant reserve, contributed surplus and accumulated deficit. The properties in which the Company currently has an interest are in the early exploration stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration activity and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the years ended December 31, 2021 and 2020.

5. Financial Risks Factors

The Company's activities expose it to a variety of financial risks, including credit risk, liquidity risk and market risk (including interest rate and foreign exchange rate risk).

Risk management is carried out by the Company's management team with guidance from the Company's Audit Committee under policies approved by the Company's Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

Credit Risk
Credit risk is the risk of loss associated with a counterparty's inability to fulfil its payment obligations. The Company's credit risk is primarily attributable to cash and cash equivalents. Cash and cash equivalents consist of cash on deposit with banks. Included in taxes and other receivables at December 31, 2021 is $83,868 (December 31, 2020 - $138,092) relating to sales taxes receivable from various Canadian governments. Management believes that the credit risk concentration with respect to its financial instruments is not significant.

5. Financial Risks Factors (continued)

Liquidity Risk

The Company's liquidity risk is the risk that Company has insufficient funds to settle its contractual financial liabilities as they fall due. The Company manages this risk by ensuring sufficient funds are available as contractual cash flows become due.

As at December 31, 2021, the Company had a cash and cash equivalents balance of $1,080,484 (December 31, 2020 - $1,883,960), as well as marketable securities of $66,825 (December 31, 2020 - $768,289), to settle current liabilities of $615,127 (December 31, 2020 - $691,969).

While the Company has been successful in obtaining required funding in the past, there is no assurance that future financings will be available.

Market Risk

Market risk is the risk of loss that might arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

i) Interest Rate Risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company is exposed to limited interest rate risk, as it only holds cash and cash equivalents and does not have any interest-bearing debt.

ii) Foreign Currency Risk:

The Company holds a bank account denominated in United States dollars and is subject to risk of fluctuations in the exchange rate of the United States dollar against the Canadian dollar. As at December 31, 2021 and December 31, 2020, the Company had a minimal balance in its US bank account; therefore, the impact of any change in the United States dollar against the Canadian dollar would be insignificant.

6. Cash and Cash Equivalents

Cash and cash equivalents consist of:

	December 31, 2021	December 31, 2020
	$	$
Cash deposits	**1,050,484**	1,853,960
Cash equivalents	**30,000**	30,000
	1,080,484	1,883,960

7. Taxes and other receivables

	December 31, 2021	December 31, 2020
	$	$
Taxes recoverable	**83,868**	138,092
Due from related party	**-**	31,420
	83,868	169,512

(Expressed in Canadian dollars, unless otherwise noted)

8. Equipment

The following tables summarize the Company's equipment carrying values:

December 30, 2021	**Cost**	**Accumulated Depreciation**	**Carrying Value**
	$	**$**	**$**
Exploration equipment	**124,658**	**(92,419)**	**32,239**
Vehicles	**79,863**	**(63,790)**	**16,073**
	204,521	**(156,209)**	**48,312**

December 31, 2020	Cost	Accumulated Depreciation	Carrying Value
	$	$	$
Exploration equipment	83,739	(83,472)	267
Vehicles	79,863	(50,660)	29,203
	163,602	(134,132)	29,470

9. Leases

a) Right-of-Use Asset

	$
Balance, January 1, 2020	-
Additions	45,398
Depreciation for the year	(3,850)
Balance, December 31, 2020	**41,548**
Depreciation for the year	(5,589)
Disposal	(35,959)
Balance, December 31, 2021	**-**

During the year ended December 31, 2021, the Company disposed of its right-of-use asset resulting in a loss on disposal of $1,741 which was recorded in the statements of loss and comprehensive loss. The Company's lease contract was for exploration equipment.

b) Lease Obligation

	$
Balance, December 31, 2019	-
Additions	41,414
Lease payments	(1,991)
Interest expense	215
Balance, December 31, 2020	**39,638**
Lease payments	**(5,975)**
Interest expense	**554**
Lease obligation settlement on disposal of right-of-use asset	**(34,217)**
Balance, December 31, 2021	**-**

(Expressed in Canadian dollars, unless otherwise noted)

9. Leases (continued)

The Company calculated the lease obligation based on the net present value of the future lease payments. The obligation was calculated using an incremental borrowing rate of 5.95%.

10. Mineral Properties

The Company has ownership interests in the one exploration project, namely the Scadding-Powerline-Jovan ("SPJ") project.

The following table summarizes the cumulative exploration and evaluation expenditures the Company has incurred on the SPJ project:

	$
Balance, December 31, 2019	**3,953,569**
Exploration expenditures & property acquisition costs	3,433,012
Balance, December 31, 2020	**7,386,581**
Exploration expenditures & property acquisition costs	2,252,049
Balance, December 31, 2021	**9,638,630**

a) <u>Scadding-Powerline-Jovan Property</u>

The SPJ property consists of the Scadding, Powerline, Jovan, Blueberry, Loney and Golden Copper properties.

On April 24, 2019, the Company signed definitive agreements with both Northern Sphere Mining Corp. ("Northern Sphere") and Currie Rose Resources Inc. ("Currie Rose") to purchase a 100% interest in the leases comprising the Scadding Mine, as well as additional mineral claims that surround the permitted Scadding Mine site (collectively, the "Scadding Mine"), which is located in Scadding Township near the Wanapitei – Ashigami Lakes district, 40 kilometres east of Sudbury, Ontario. The site was initially mined by Northgate Exploration in the 1980's.

To acquire Northern Sphere's 51% interest in the Scadding Mine and a 100% interest in the surrounding claims, the Company satisfied the following conditions:

- issued 10,000,000 of the Company's common shares upon transfer of title (the shares were issued on September 10, 2019, with a fair value of $900,000;
- made a $100,000 cash payment (this was paid on the signing of definitive agreements); and
- incurred $300,000 in eligible exploration expenditures in the 12-month period following acquisition of the Scadding Mine.

The agreement with Northern Sphere is subject to both a standstill clause and voting requirements.

To acquire Currie Rose's 49% interest in the Scadding Mine, the Company satisfied the following conditions:

- issued 8,000,000 of the Company's common shares (the shares were issued on September 4, 2019, with a fair value of $640,000;
- made a $50,000 cash payment on transfer of title (this was paid on the signing of definitive agreements); and
- incurred $1.5M of eligible exploration expenditures on the leases partially comprising the Scadding Mine within a three-year period following acquisition.

As part of the agreement, Currie Rose retains a 3% Net Smelter Return ("NSR") on the property. Upon reaching commercial production, the Company agrees to pay Currie Rose $2,000,000 in exchange for a reduction of the NSR to

10. Mineral Properties (continued)

2.5%. An additional 1% of the NSR can be bought back for $1,000,000. 514 Finance Inc. acted as an arms-length advisor for this transaction and the Company issued 2,000,000 common shares for its services. The fair value of the shares issued was $160,000.

On July 9, 2019, the Company entered into an agreement with Blueberry Cobalt Project Corp. to purchase a 100% interest in certain claims located in Greater Sudbury, Ontario. In consideration for the purchase of the mining claims the Company paid $50,000 in cash and issued 3,000,000 common shares. The fair value of the shares issued was $150,000.

On September 2, 2019, the Company entered into an agreement with Klondike Bay Resources (Loney Property) to acquire a 100% interest in 151 claims in the Wanapitei Lake area, 33 kilometres northeast of Sudbury, Ontario. The terms of the purchase agreement require the following payments:

- $20,000 and 200,000 shares on the signing of the definitive agreement (the cash was paid on signing the agreement, while the Company issued 200,000 common shares on November 8, 2019). The fair value of the shares issued was $20,000.
- $30,000 and 300,000 shares on or before first anniversary of agreement (the shares were issued on September 30, 2020 with a fair value of $33,000, while the cash payment of $30,000 was made on November 3, 2020); and
- $30,000 and 250,000 shares on or before the second anniversary of the agreement (the shares were issued on September 17, 2021, with a fair value of $12,500, while the cash payment of $30,000 was made on September 24, 2021).

On October 2, 2019, the Company entered into an agreement with Golden Copper Corp. to purchase a 100% interest in 38 mining claims located 35 kilometres from downtown Sudbury, Ontario. The Company made a cash payment of $5,000 upon signing the definitive agreements. On November 8, 2019, the Company issued 1,875,000 common shares. The fair value of the shares issued was $187,500.

On July 18, 2018, the Company announced it acquired an option to earn 100% interests in the Jovan and Powerline properties. The purchase price was structured to be payable over a three-year period and included cash payments totalling $225,000, the issuance of commons shares valued at $180,000 and the commitment to spend up to $800,000 in exploration activities. The Company made a cash payment of $37,500 upon signing the definitive agreements. On October 5, 2018, the Company issued 500,000 common shares with a fair value of $20,000 pursuant to the definitive agreement. On August 14, 2019, in accordance with agreement, the Company issued 800,000 common shares with a fair value of $40,000 and paid $45,500 in cash. On August 6, 2020, the Company made a cash payment of $66,000 and on September 14, 2020, the Company issued 409,091 common shares with a fair value of $45,000 in accordance with the agreement. On July 15, 2021, the Company made a cash payment of $26,000 and as at December 31, 2021, the Company had an accrued amount of $50,000 for the remaining balance owing which was paid subsequent to the year end.

On February 15, 2021, the Company entered into an agreement to acquire a 100% interest in four claims (the “Claims”) located on the Jovan property. This acquisition added 36 hectares to the Company’s land position. Total consideration for the purchase of the mining claims was $150,000, of which $75,000 was paid in cash on the signing of the agreement and $75,000 was paid in common shares of the Company based on the previous 5-day VWAP. In total 1,071,429 common shares were issued on April 21, 2021, with a fair value of $0.07 each.

b) Holdsworth Project

On December 7, 2016 (the “Effective Date”), the Company entered into an Option and Joint Venture (“JV”) agreement (“the Option Agreement”) with Noble to advance exploration on Noble’s Wawa-Holdsworth Gold and Silver Project (the “Holdsworth Project”), located 25 kilometres northeast of Wawa, Ontario.

10. Mineral Properties (continued)

Subject to the terms and conditions of the Option Agreement, the Company had the right to earn up to an undivided 75% interest in the Project, comprising of a first option to earn a 51% base interest (the "Base Interest") and a second option to earn an additional 24% interest. The property covers 18 contiguous patented mining claims covering approximately 285 hectares.

To earn an initial 51% undivided interest in the Holdsworth Project, the Company issued 2,500,000 of its common shares and 2,500,000 share purchase warrants to Noble and had to incur a minimum of $1,200,000 in expenditures in the 18-month period following the Effective Date. The share purchase warrants had an exercise price of $0.15 and expired 3 years from the date of issue. The Company issued the common shares and share purchase warrants on January 12, 2017. To earn the additional 24% undivided interest, the Company was to incur a further $1,000,000 of expenditures on or before the second anniversary of the date the 51% interest is exercised and the Base Interest is earned and make a payment of $100,000 to Noble.

On May 3, 2017, the Option Agreement was replaced with a purchase agreement whereby the Company agreed to acquire the Holdsworth Project from Noble (the "Purchase Agreement"). The purchase price comprised the following: (i) 5,500,000 units of the Company; (ii) the granting of a 1.5% net smelter return royalty in favour of Noble; and (iii) the payment of the equivalent of 5,000 ounces of gold once a mineral reserve or resource had been identified compliant with National Instrument 43-101 guidelines. Each unit comprised one common share and one share purchase warrant of the Company, with each share purchase warrant having an exercise price of $0.30 and a 3-year term from the date of issue. The Purchase Agreement supersedes the Option Agreement. Payment of the 5,500,000 units was to be issued in tranches to ensure Noble's shareholdings in the Company did not exceed 9.9%.

On October 25, 2018, the Company announced that it had elected to cease any further work at its Holdsworth Project and rather focus its efforts on the Jovan and Powerline properties. The remaining units will no longer be issued under the Purchase Agreement. In total, the Company issued 5,225,000 units to Noble under the Purchase Agreement.

On August 24, 2020, the Company entered into an agreement with Noble to sell all of its interest in the Holdsworth Project back to Nobel. As consideration for the property, Noble issued to the Company 4,000,000 common shares of Noble, as well as 2,000,000 warrants which expire 3 years after issuance and are exercisable at $0.15 per common share of Noble. The fair value of the common shares received on August 24, 2020 was $0.09 per share, equal to Noble's closing price on the TSX on that date, while the fair value of the warrants received was determined using the Black-Scholes model to be $0.06 each. The fair value of the total consideration received was $481,419, which was recorded as other income in the statements of loss and comprehensive loss.

c) Charlevoix-Silica Property

On November 18, 2016, the Company entered into a purchase agreement with 9019-5504 Quebec Inc. to acquire a 100% interest in certain mining claims located in the Province of Quebec known as the Charlevoix-Silica Property. In consideration for the purchase of the mining claims, the Company issued 9,000,000 common shares on January 12, 2017 valued at $0.07 per share, for a total fair value of $630,000.

On February 16, 2021, the Company entered into an agreement with Quebec Silica to sell all of its interest in the Charlevoix-Silica Property. As consideration for the property, Quebec Silica issued to the Company 1,000,000 of its common shares. The fair value of the common shares received was $0.05 per share, determined using Quebec Silica's share price for its most recent financing prior to the transaction, for a total fair value received of $50,000. This was recorded as other income in the statements of loss and comprehensive loss.

(Expressed in Canadian dollars, unless otherwise noted)

10. Mineral Properties (continued)

d) McFaulds Lake and Area Properties

The Company had held property in this region of Northern Ontario since 2004. During the year ended December 31, 2020, the Company sold its remaining interests in the McFaulds Lake and area properties to Juno, a private company. As consideration for the properties, the Company received $55,000 in cash and 500,000 common shares in the capital of Juno. The fair value of the common shares received was $0.20 per share, determined using Juno's share price for its most recent financing prior to the transaction. The fair value of the shares received was valued at $100,000 and the total consideration received of $155,000 was recorded as other income in the statements of loss and comprehensive loss. On January 22, 2021, the Company sold all of its shares in Juno to various third parties for a total sum of $185,000 representing a price of $0.37 per common share. This resulted in a loss of $115,000 and was recorded as part of the net gain on marketable and other securities in the statements of loss and comprehensive loss.

11. Accounts Payable and Accrued Liabilities

	December 31, 2021	December 31, 2020
	$	$
Accounts payable	**285,229**	323,428
Accrued liabilities	**105,966**	128,702
	391,195	452,130

12. Deferred Premium on Flow-Through Shares

The premium paid for flow-through shares in excess of the market value of the shares without the flow-through features is initially recognized as a liability. The liability is subsequently reduced and recorded in the statements of loss and comprehensive loss on a pro-rata basis based on the corresponding eligible expenditures that have been incurred when it is the Company's intention to file the appropriate renunciation forms with the Canadian taxation authorities. The following table sets out the changes to the deferred premium balances:

		2021 F/T Series		**2020 F/T Series**		**Total**
Balance, January 1, 2020	$	-	$	42,822	$	42,822
Decrease of deferred premium		-		(42,822)		(42,822)
Balance, December 31, 2020	$	-	$	-	$	-
Balance, December 31, 2021	**$**	**-**	**$**	**-**	**$**	**-**

13. Provision for Flow-Through Shares

During the year ended December 31, 2015, the Company underwent an audit conducted by the Canada Revenue Agency ("CRA") for the calendar years 2010 to 2013. As a result of the audit, CRA adjusted the amount of qualifying expenditures that were renounced to subscribers aggregating approximately $2,500,000. The Company did not appeal the adjustment resulting in the subscribers being reassessed tax payable for calendar years 2010-2013 for which the Company was ultimately responsible. In addition, CRA assessed additional Part XII.6 tax of $255,043 to the Company in connection with the shortfall, which was paid in January 2017.

(Expressed in Canadian dollars, unless otherwise noted)

13. Provision for Flow-Through Shares (continued)

At December 31, 2021, there is a provision of $200,891 (December 31, 2020 - $217,698) representing the estimated amount of repayments to subscribers, related to the 2010-2013 shortfalls in flow-through eligible exploration expenditures, that the Company currently expects to incur. During the year ended December 30, 2021, the Company made cash payments of $16,807 (2020 - $44,833) to settle obligations to subscribers. During the year ended December 31, 2020, the Company reduced its estimate of the amount of provision ultimately payable, recording a recovery of $716,875 against the amount previously accrued.

14. Marketable and Other Securities

As at December 31, 2021, the Company's marketable securities were valued at $212,811 (December 31, 2020 - $768,289) and included:

- Noble Mineral Exploration Inc. ("Noble") warrants held that are measured using the Black-Scholes model and classified as Level 2 (see Note 10(b)).

- Quebec Silica Resources Corp ("Quebec Silica") common shares held that are measured at fair value and classified as Level 1 (see Note 10(c)).

During the year ended December 31 2021, $778,930 was received from the sale of marketable securities, comprising $510,345 from the sale of Noble shares on the TSXV that were received from the sale of the Holdsworth property, $185,000 from the private sale of Juno shares to third parties that were received from the sale of the McFaulds Lake and area properties and $83,585 from the sale of Quebec Silica shares that were received from the sale of the Charlevoix-Silica Property (see note 10(c)). The Company recorded a net gain on marketable and other securities in the statements of loss and comprehensive loss.

15. Related Party Transactions and Balances

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company. Key management personnel include the Board of Directors and the executive management team, which comprises: (i) the President and Chief Executive Office; and (ii) the Chief Financial Officer.

Compensation for key management personnel of the Company for the year ended December 31, 2021 and 2020 was as follows:

	2021	2020
	$	$
Short-term benefits	**286,000**	275,669
Share-based payments	**195,971**	472,363
	481,971	748,032

At December 31, 2021, included in accounts payable and accrued liabilities is an amount of $23,440 (December 31, 2020 – included in taxes and other receivables - $31,420) related to exploration and general and administrative charges to/from a company under common management and an amount of $2,014 (December 31,2020 - $61,341) owing to previous CEO of the Company.

16. Shareholders' Equity

a) Share Capital

The Company's authorized share capital includes an unlimited number of Class "A" common shares having no par value. At December 31, 2021, 257,463,516 common shares (December 31, 2020 – 213,294,290) were issued and outstanding. Please refer to the statements of changes in shareholders' equity for movements in share capital during the years ended December 31, 2021 and 2020.

On April 21, 2020, the Company closed a non-brokered private placement financing for gross proceeds of $994,781. The Company issued 7,388,480 units at a price of $0.065 per unit and 7,350,428 flow-through common shares at a price of $0.07 per common share. Each unit consisted of one common share and one-half of one common share purchase warrant exercisable for a period of two years at an exercise price of $0.10 per warrant. As part of the financing the Company paid $65,242 cash commission and issued 396,217 finders shares valued at $27,735. The fair value of the warrants issued under the financing was $0.06 per warrant (see Note 16(c)).

On August 5, 2020, the Company closed a non-brokered private placement offering for total gross proceeds of $4,245,850 consisting of: (i) 9,332,223 "charity flow-through" units at a price of $0.135 each; and (ii) 29,860,000 "flow-through" units at a price of $0.10 each. Each unit was comprised of one common share and one-half of one common share purchase warrant. Each warrant shall be exercisable to acquire one common share at a price of $0.20 for a period of 24 months from the closing of the offering. If the closing price of the common shares is at a price equal to or greater than $0.35 for a period of 10 consecutive trading days, the Company will have the right to accelerate the expiry date of the warrants by giving notice, via a news release, to the holders of the warrants that the warrants will expire on the date that is 30 days after the issuance of said news release. As part of the financing the Company paid $270,540 cash commission and issued 2,301,756 broker warrants. The fair value of the warrants issued under the charity flow-through financing and the flow-through financing was $0.09 per warrant (see Note 16(c)).

On September 14, 2020, the Company issued 409,091 common shares in relation to the Jovan-Powerline property agreement. The fair value of the shares issued was $45,000 (see Note 10(a)).

On September 30, 2020, the Company issued 300,000 common shares in relation to the Loney property agreement. The fair value of the shares issued was $30,000 (see Note 10(a)).

On April 21, 2021, the Company issued 1,071,429 common shares in relation to the acquisition of a 100% interest in four claims located on the Jovan property (see Note 10(a)). The fair value of the shares issued was $75,000.

On September 17, 2021, the Company issued 250,000 common shares in relation to the Loney property agreement. The fair value of the shares issued was $12,500 (see Note 10(a)).

On November 9, 2021, the Company closed the first tranche of a non-brokered private placement offering for gross proceeds of $1,418,650.87 consisting of: (i) 18,947,797 "flow-through" units at a price of $0.045 each, and (ii) 14,150,000 non flow-through units at a price of $0.04 each. Each flow-through and non flow-through unit is comprised of one common share and one-half of one share purchase warrant. Each warrant is exercisable to acquire one common share at a price of $0.07 for a period of 24 months from the closing of the offering. The fair value of the warrants issued under this tranche was $0.015 per flow-through warrant and $0.0135 per non flow-through warrant totaling $240,912(see Note 16(c)).

On November 15, 2021, the Company closed the second tranche of a non-brokered private placement offering for gross proceeds of $393,500 consisting of: (i) 700,000 "flow-through" units at a price of $0.045 each, and (ii) 9,050,000 non flow-through units at a price of $0.04 each. Each flow-through unit and non flow-through unit is comprised of one

(Expressed in Canadian dollars, unless otherwise noted)

16. Shareholders' Equity (continued)

a) Share Capital (continued)

common share and one-half of one share purchase warrant. Each warrant is exercisable to acquire one common share at a price of $0.07 for a period of 24 months from the closing of the offering. The fair value of the warrants issued under this tranche was $0.015 per flow-through warrant and $0.0133 per non flow-through warrant totaling $65,629 (see Note 16(c)).

The Company paid finders' fees of $122,752 and issued 2,895,153 compensation options to such finders under the non brokered private placement. Each compensation option entitles the holder to acquire units of the Company comprised of one common share and one half of one warrant at a price of $0.05 per compensation option. The fair value of the compensation options issued under the financing was $0.03 per compensation option (see Note 16(d)).

b) Stock Options

The Company has a stock option plan (the "Plan") pursuant to which the Company's Board of Directors may grant incentive stock options to directors, officers, employees and consultants at the discretion of the Board of Directors. The exercise price and vesting period of any option is fixed by the Board of Directors on the date of grant in accordance with applicable stock exchange or other regulatory requirements, if applicable. The maximum aggregate number of common shares under option at any time under the Plan cannot exceed 10% of the then issued and outstanding number of common shares.

On February 18, 2020, the Company granted 4,725,000 stock options to directors, employees, officers and consultants at an exercise price of $0.08 per common share. These five-year options vested immediately upon grant. The fair value of the stock options granted was estimated to be $324,679 and is included in the statements of loss and comprehensive loss for the year ended December 31, 2020.

On August 21, 2020, the Company granted 4,395,560 stock options to directors, employees, officers and consultants at an exercise price of $0.13 per common share. These five-year options vested immediately upon grant. The fair value of the stock options granted was estimated to be $407,200 and is included in the statements of loss and comprehensive loss for the year ended December 31, 2020.

On November 25, 2021, the Company granted 7,500,000 stock options to directors, employees, officers and consultants at an exercise price of $0.05 per common share. These five-year options vested immediately upon grant. The fair value of the stock options granted was estimated to be $254,288 and is included in the statements of loss and comprehensive loss for the year ended December 31, 2021.

The following table summarizes stock option movements during the years ended December 31, 2021 and 2020:

	Number of Options	Weighted Average Exercise Price
Balance, December 31, 2019	**7,935,000**	**$ 0.12**
Granted	9,120,560	0.10
Cancelled/expired	(1,675,000)	0.11
Balance, December 31, 2020	15,380,560	0.11
Granted	7,500,000	0.05
Cancelled/expired	(2,805,560)	0.12
Balance, December 31, 2021	**20,075,000**	**$0.09**

(Expressed in Canadian dollars, unless otherwise noted)

16. Shareholders' Equity (continued)

b) Stock Options (continued)

Outstanding stock options at December 31, 2021 were as follows:

Expiry Date	Number of Stock Options Outstanding and Exercisable	Black-Scholes Fair	Exercise Price	Remaining Contractual Life (Years)
May 22, 2022	1,415,000	$ 266,041	$ 0.18	0.39
July 18, 2023	1,225,000	73,474	0.09	1.55
September 8, 2024	2,080,000	165,790	0.10	2.69
February 18, 2025	4,330,000	297,537	0.08	3.10
August 21, 2025	3,525,000	326,552	0.13	3.64
November 25, 2026	7,500,000	254,288	0.05	4.91
	20,075,000	**$ 1,383,682**	**$ 0.09**	**3.54**

The fair value of the stock options issued during the year ended December 31, 2021 and 2020 was calculated using the Black-Scholes option pricing model utilizing the following assumptions:

	November 25, 2021	February 18, 2020	August 21, 2020
Risk-free interest rate	1.03%	1.39%	0.31%
Expected stock volatility	132%	212%	165%
Expected life	5 years	5 years	5 years
Dividend yield	0%	0%	0%

c) Warrants

The Company has issued warrants as part of equity financings. The fair value of warrants is recognized upon issuance as an equity reserve until expiration or exercise.

The following table summarizes warrant movements during the years ended December 31, 2021 and 2020:

	2021		2020	
	Number of Warrants	Weighted Average Exercise Price	Number of Warrants	Weighted Average Exercise Price
Balance, January 1	**53,790,831**	**$ 0.14**	42,297,580	$ 0.11
Issued	**21,423,898**	**0.07**	25,592,108	0.19
Exercised	**-**	**-**	(2,000,000)	0.08
Expired	**(9,012,325)**	**0.09**	(12,098,857)	0.18
Balance, December 31	**66,202,404**	**$0.13**	53,790,831	$ 0.14

(Expressed in Canadian dollars, unless otherwise noted)

16. Shareholders' Equity (continued)

c) Warrants (continued)

Warrants outstanding and exercisable as at December 31, 2021 were as follows:

Issue Date	Expiry Date		Exercise Price	Number of Warrants		Relative Fair Value
March 7, 2017	March 7, 2022	$	0.07	436,398	$	73,838
October 7, 2019	October 7, 2022		0.11	18,750,000		676,000
April 21, 2020	April 21, 2022		0.10	3,694,240		109,238
August 5, 2020	August 5, 2022		0.20	21,897,868		1,118,168
November 9, 2021	November 9, 2023		0.07	16,548,898		240,912
November 15, 2021	November 15, 2023		0.07	4,875,000		65,629
		$	**0.12**	**66,202,404**	**$**	**2,283,785**

The fair value of the warrants issued in 2021 and 2020 was estimated using a relative fair value attribution of the Black-Scholes model for pricing options using the following weighted average assumptions:

	November 15, 2021	November 9, 2021	April 21, 2020	August 5, 2020
Risk-free interest rate	1.02%	0.97%	0.33%	0.23%
Expected stock volatility	118%	118%	153%	154%
Expected life	2 years	2 years	2 years	2 years
Dividend yield	0%	0%	0%	0%

d) Compensation Options

The Company has issued 2,895,153 compensation options to brokers as part of equity financings (see note 15(a)). The fair value of the compensation options is recognized upon issuance as an equity reserve until expiration or exercise.

The fair value of the compensation options issued in 2021 was estimated using a relative fair value attribution of the Black-Scholes model for pricing options using the following weighted average assumptions:

	November 15, 2021	November 9, 2021
Risk-free interest rate	1.02%	0.97%
Expected stock volatility	118%	118%
Expected life	2 years	2 years
Dividend yield	0%	0%

(Expressed in Canadian dollars, unless otherwise noted)

17. Income Taxes

A reconciliation of the combined Canadian federal and provincial statutory income tax rate of 26.5% (2020 – 26.5%) to the effective tax rate is as follows:

		2021		2020
Net loss before income tax	$	**(3,095,646)**	$	(3,359,348)
Expected income tax recovery		**(820,350)**		(890,230)
Share-based compensation		**67,386**		193,950
Non-deductible expenses		**(5,630)**		(35,540)
Share issuance costs booked directly to equity		**(63,420)**		(179,690)
Change in tax benefits not recognized		**822,014**		911,510
Income tax	$	-	$	-

The following table summarizes the components of deferred tax:

		2021		2020
Deferred tax assets				
Capital lease obligation	$	**-**	$	10,500
Operating tax losses carried forward		**-**		510
		-		11,010
Deferred tax liabilities				
ROU assets		**-**		(11,010)
Net deferred tax	**$**	-	**$**	-

Deferred tax assets and liabilities have been offset where they relate to income taxes levied by the same taxation authority and the Company has the legal right and intent to offset.

Deferred taxes are provided as a result of temporary differences that arise due to the differences between the income tax values and the carrying amounts of assets and liabilities. Deferred tax assets have not been recognized in respect of the following deductible temporary differences:

	2021	2020
	$	$
Mineral properties	**22,720,080**	20,582,530
Operating tax losses carried forward	**13,053,920**	12,110,500
Marketable securities	**849,960**	729,730
Investment tax credits	**911,650**	911,650
Share issuance costs	**638,620**	683,080
Reserves	**200,890**	217,700
Capital losses	**47,710**	47,710
Property, plant and equipment	**165,220**	143,140
	38,588,050	35,426,040

The Canadian operating tax losses carry forwards expire as noted in the table below. The capital loss carry forwards may be carried forward indefinitely, but can only be used to offset capital gains. The investment tax credits will expire from 2025 to 2032. The remaining deductible temporary differences may be carried forward indefinitely. Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Company can utilize the benefits therefrom.

(Expressed in Canadian dollars, unless otherwise noted)

17. Income Taxes (continued)

The Company's Canadian operating tax losses expire as follows:

Year		Amount
2026	$	469,174
2027		665,054
2028		1,223,955
2029		1,155,540
2030		1,840,702
2031		1,038,317
2032		1,540,523
2033		779,163
2034		230,007
2035		-
2036		372,026
2037		871,677
2038		575,401
2039		733,440
2040		617,428
2041		941,513
	$	13,053,920

18. Commitments – Flow-through expenditure commitment

The Company completed flow-through share financings that involve a commitment to incur Canadian Exploration Expenditures ("CEE") prior to the end of specific calendar years and to renounce the CEE tax deductions to the flow-through share subscribers. The outstanding flow-through commitment at December 31, 2021 was $1,184,187 (December 31, 2020 - $2,148,126), which must be spent by December 31, 2022.

19. Subsequent Events

On January 17, 2022, the Company announced the appointment of Mr. Greg Romain as President and CEO. Mr. Romain was granted 1,250,000 stock options, of which half vested immediately and half on July 17, 2022. The options allow Mr. Romain to purchase the same number of common shares of the Company at a price of $0.05 per share for a period of five years.

On January 18, 2022, the Company issued 1,500,000 common shares in connection with the Jovan and Powerline properties acquisition. The fair value of the common shares issued was $60,000 (see Note 10(a)).
